

Let Us Apprehend and Incarnate Juche Idea and Apply It More Widely

Oye Beavogui

Deputy Secretary-General, Democratic Party of Guinea-Democratic Rally of Africa (PDG-RDA)

Dear everyone,

Dear delegates of the Juche idea study organizations,

On this meaningful occasion that greets the 75th founding anniversary of the DPRK, the Democratic Rally of Africa-Democratic Party of Guinea extends the warmest congratulations to H.E. Kim Jong Un, General Secretary of the Workers' Party of Korea, President of the DPRK State Affairs, Supreme Commander of the DPRK armed forces and to the heroic DPRK people.

We offer our congratulations to the fact that the WPK General Secretary H.E. Kim Jong Un is engaged as a heir to the Juche idea authored by the most respected Comrade Kim Il Sung and developed and enriched by Chairman Kim Jong Il in the 20th century.

Dear delegates of the Juche idea study organizations,

This gathering serves as a wonderful occasion that reminds the people once again of the fact that the Juche idea is the most correct ideology that led and is leading the world progressives to victory and glory.

Dignity as a powerful country and independent development achieved by the DPRK for 75 years show us how big the Juche idea influences all countries in the world that strive to achieve genuine development free from all forms of foreign aids or dependence on others.

Celebrating the 75th founding anniversary of the DPRK is an occasion that proves validity and vitality of the Juche idea that elucidates the independent road ahead of the struggling people.

Dear delegates of the Juche idea study organizations,

The validity and vitality of the Juche idea find their expressions in balancing social relations by reflecting all aspirations of the working masses. Let us apprehend and incarnate the Juche idea and apply it more widely—this, I think, is a slogan that should be held up by all countries struggling for complete independence.

Dear delegates of the Juche idea study organizations,

All of us are well aware of that the Juche idea has it as the first mission to defend interests of the masses. The Juche idea today demonstrates its validity more vividly

when comparing to the historical fact that the former USSR or other countries collapsed as they neglected the independent idea and national characters.

In such a condition that some people are still half in doubt about the Juche idea, we say that it is an idea that demonstrates its organizing and mobilizing abilities to the world and an idea that defends interests of the masses. Evident proof of this is proud realities of socialist Korea today.

Today the DPRK makes a surprising leap forward in science and technology while frustrating vicious and mean, anti-popular and anti-national maneuvers of hostile forces. Such brilliant realities of socialist Korea are not so surprising ones for us. Once president Ahmed Sékou Touré, the leader of the Guinean revolution said “It is wrong to be appraised by the imperialists. On the contrary, it is good to be hated by them.” In other words, this means that it is impossible to be a friend of both the oppressing one and the oppressed one at the same time. Through the desperate maneuvers by the imperialists and socialist Korea’s realities witnessed by the world, we can fully recognize that H.E. Kim Jong Un leads the DPRK to the most correct road.

Dear delegates of the Juche idea study organizations,

The Democratic Rally of Africa-Democratic Party of Guinea and Group for the Study of the Juche Idea of Guinea value the friendship established between Guinea and the DPRK on the principle of mutual respect under special concerns of President Kim Il Sung and H.E. Ahmed Sékou Touré.

That is why this seminar serves as an occasion that enables us to strengthen the friendly relations and further develop the cooperative relations between our two countries.

Greeting the founding anniversary of the DPRK, we reassert that we are on your side, and we call upon all progressive countries and the Juche idea study organizations over the world to decisively break down the imperialist forces by further strengthening and developing friendly and cooperative relations between them.

We should always look back upon the long history that we made together, the time when we registered successes together and the period when we were in difficulties.

We should aspire to the future with the spirit of cooperation and mutual respect while frustrating all hostile challenges.

Struggle for dignity and sustained development of human requires us to join all our efforts. All countries and organizations should struggle with it as their aim.

Dear delegates of the Juche idea study organizations,

We follow the Juche idea, and we will support it in the future, too.

We will be with the DPRK people and will never spare support and solidarity to their just and noble struggle.
