

Great Exploits of Great Leaders of DPRK Contributed to Cause of Independence of Mankind

Teguh Santosa

President, Indonesia-DPRK Association for the Friendship and Cultural Exchanges

First of all, I consider it a great privilege for me to be able to participate in this international seminar on the immortal Juche idea on the occasion of the 75th founding anniversary of the Democratic People's Republic of Korea.

On this occasion, I would like to express my warm respect to President Kim Il Sung who created the Juche idea and founded the DPRK and the Great Leader Kim Jong Il who brilliantly embodied and developed the Juche idea.

We all know very well that President Kim Il Sung is the great thinker and theoretician who created the immortal Juche idea, which takes the highest and most brilliant place in the history of human thought.

The Juche idea created by President Kim Il Sung regards mankind as the most valuable being in the world, puts mankind at the center of thinking about all problems, and makes everything serve them.

This idea requires that everything in society serve the interests of the popular masses.

I believe that the Juche idea is a profound ideology that attaches the greatest importance to human beings and is an ideology that insists on making everything serve human beings.

The socialist system of the DPRK established by President Kim Il Sung on the basis of the Juche idea is the most superior social system in which the masses of the working people are the masters of everything and everything serves them.

The DPRK, advancing forward by applying the Juche idea to all aspects of social life including politics, the economy, national defence and culture, has today become a paradise for the people who continue to produce miracles despite the unprecedented vicious sanctions and pressure from the United States.

The amazing miracles now being unfolded in the DPRK under the leadership of President Kim Jong Un of DPRK State Affairs are the shining

fruits of adhering to the Juche idea and building socialism only to meet the needs and interests of the Korean people amidst the complicated international political situation.

I saw the vitality of the Juche idea in the DPRK today by watching the DPRK's mighty national defence and happy children and people on TV.

Great ideas are immortal and praised by mankind.
