On the National Day in *Juche* 112 (2023), the revolutionaries and progressives of the world, we greet with jubilation a new September 9, when 75 years ago the eternal President His Excellency President Kim Il Sung founded the glorious Democratic People's Republic of Korea, the state of the working men and women, and put forward true line of independence against imperialism, line of defence of socialism and the line of independence and workers' internationalism.

The DPRK is an example and guide for the oppressed peoples of the world fighting for their independence and socialism, correctly demonstrating the truth and soundness of the Juche idea applied to a socialist giant like the People's Korea.

It was a milestone in the history of mankind, for it was and has been the scientific demonstration that socialism and independence of the masses can be put into practice, and that its existence can be maintained in the face of the revisionism that put an end to socialism in other countries in the world.

His Excellency Kim Jong Il, was a faithful follower of the path taken by the eternal President, and today, His Excellency Kim Jong Un, is a worthy heir and continuator of the imperishable and countless victories achieved by the Great Persons of Mount Paektu, always at the side of the DPRK people.

Juche is the factor that guarantees the success of the DPRK throughout its impressive history. Today we know that Juche Korea is in store for the imperishable successes and a bright future under the wise leadership of our Dear Marshal.
