

Congratulatory Message from Latin American Institute of the Juche Idea

Dear participants in the seminar,

The Latin American Institute of the Juche Idea deems it an honor to offer warm congratulations to all participants in the International Seminar on “Independence, Sovereignty and Social Development—Commemoration of DPRK’s 75th Founding Anniversary” held on the occasion of its 75th birthday.

The seminar is a very important gathering as it is held on the significant time of marking the founding anniversary of the DPRK that has made the 75-year victorious and glorious history while heroically defending independence and sovereignty of the country and peace and stability of the Korean peninsula and the world under wise leadership of the great leaders.

It will be of weighty significance to stress in the seminar the great exploits of Kim Il Sung, the eternal DPRK President, who authored the people-centred immortal Juche idea, freed Korea from the colonial yoke of Japanese imperialism, founded the glorious DPRK, brought about the beginning of a downhill turn for US imperialism by winning brilliant victory in the Fatherland Liberation War and strengthened the Workers’ Party of Korea, the DPRK and its revolutionary armed forces into the invincible ones.

We are always convinced of validity and vitality of the Juche idea that was authored by President Kim Il Sung, developed and systematized by Chairman Kim Jong Il and is now being brilliantly carried forward by General Secretary Kim Jong Un. We are also convinced that the DPRK people will win big victory in the struggle for socialism while defending reliably their sovereignty and dignity upholding the banner of Juche.

The Latin American Institute of the Juche Idea expresses firm conviction that the seminar will serve as a very important occasion in expanding the dissemination of the Juche idea on a worldwide scale and extending firm support and solidarity to the DPRK people who struggle for victory in the showdown with US imperialism and the building of a new world of justice under the wise leadership of President Kim Jong Un of the DPRK State Affairs. We sincerely wish the seminar a success.
