

75th Founding Anniversary of DPRK

Rita Rojas Farfán,

International Secretary, Peruvian People's Women Union,
Chief, Kim Jong Suk Library

The Peruvian People's Women Union, which joined the Women's International Democratic Federation, extends greetings to the fraternal Democratic People's Republic of Korea, its people and their Leader Kim Jong Un on this very important day. The DPRK was founded on September 9, 1948, and this was a historic event that opened a road to the building of a people-centered socialist country. Socialist Korea thoroughly maintains the principles of Juche in ideology, independence in politics, self-sufficiency in the economy and self-reliance in national defence. It regards as the only guideline the Juche idea that was authored by President Kim Il Sung and synthesized and systematized by Leader Kim Jong Il by applying it in all revolutionary activities during his whole life. The entire DPRK people armed themselves fully with the idea and the whole society is identified with the idea. Now we extend our thanks to Leader Kim Jong Un who leads the DPRK in a dignified way while strengthening his country into a powerful country upholding the banner of socialism.

Socialist Korea is always victorious. Let us go back to 1905-1945 when Japanese imperialism reduced Korea to submission and forced the Korean people not to use spoken and written Korean language and to even change their full names into those of Japanese style in the most cruel and inhumane methods. Japanese imperialists destroyed and plundered cultural wealth created by the Korean nation for 5 000 years. They abducted many Koreans and took them to battlefields and labor camps, arrested and assassinated patriots who were against the aggressors, and kidnapped 200 000 Korean women to make them sex slaves for the Japanese soldiers. They killed more than one million Korean people. In this period, iron-willed President Kim Il Sung started the revolutionary struggle with the aim to liberate his country from the Japanese occupation and to put an end to all kinds of injustice that restricted the Korean people, and played a dominant and epoch-making role. He paved the road of building a new society for the Korean people, and carried out the anti-imperialist, anti-feudal democratic revolution that was characterized by the land reform, the nationalization of key industries, providing women with rights equal to men and all other democratic reforms. As a result, his people have become masters of power, and now they receive the effective medical care of the highest level and the universal compulsory education that are all free. The state builds dwelling houses for its residents with its own resources. The working people

enjoy all social benefits. The DPRK is the first country which is free from tax. For all of these, we send our congratulations to the DPRK people and Chairman Kim Jong Un of the State Affairs. Extending our best greeting, we wish the DPRK to constantly advance forward, while cementing every day the road to a powerful and prosperous socialist country by dint of ardent patriotism of all citizens who are ready to devote their all to the nation.

Long live the 75th founding anniversary of the DPRK!
