I do not doubt that this seminar will be a rich and constructive one on the Juche idea.

To tell the truth, ideological ties and militant feelings among us transcend barriers caused by distance.

We, like you, have a firm faith in man and his infinite creativity.

We are impressed by the fact that the people in the Democratic People's Republic of Korea are blessed with the Juche idea founded by President Kim Il Sung. The spread and dissemination of the Juche idea is inconceivable apart from the role played by Leaders Kim Jong Il and Kim Jong Un in applying and developing it in reality.

In comparison with the genuine development of the DPRK society and the degeneration witnessed by mankind, we can understand the influence that the Juche idea inflicts upon mankind.

Unity has been achieved and all forms of discriminations have been eradicated in the DPRK society. In this society, self-sufficiency and progress are attained in different fields and exploitation of man by man has been liquidated and the people shape their own destiny.

The DPRK society is the only socialist society on the earth today, and it is no exaggeration to say that it is a model and hope of mankind which has many problems because of corruption of capitalist society.

What President Kim Il Sung saw through was that the more contradiction grows, the more aggressive and violent capitalism gets. This made capitalism find no solution but plunge into difficulties. The way for solving the problem is to liquidate the exploitation of man by man; capitalism is not going to cover that way, which means its end. The more capitalism is arrogant, the more the difficulties will be added. This can be found in the hotspots of armed conflict between countries, tensions, natural encroachment and the spread of social evils within one country and other phenomena that are planned and spread in the dark backrooms of imperialism. However, these phenomena were defeated before the castle of the Juche idea which became a reality in the DPRK's experience.

The Juche idea is the best idea for eliminating all social contradictions.
