Congratulatory Message to International Seminar on Juche Idea

We extend militant greetings to you.

On behalf of the leadership of the Palestinian Popular Struggle Front, our masses of the people, the fighting forces and on my own, I send the warmest congratulation to you on the occasion of the holding of the International Seminar on the Juche Idea.

The Juche idea illuminated the way ahead of the friendly DPRK people and thus enabled them to attain goals for freedom, independence, development and creation in the fields of politics, military, the economy and culture.

Congratulating the holding of this important international seminar, we recollect great achievements of President Kim Il Sung who provided human value and pillar in building the Party and state. We also affirm that, thanks to his great achievements, the DPRK could be built into a more powerful country by frustrating moves of the US and the West against the Korean people.

We send our greetings once again.

Best regards.

Khalid Abdul al Majid

General Secretary of the Palestinian Popular Struggle Front
