In the beginning of the 20<sup>th</sup> century, Korea got occupied by the Japanese imperialists. Immediately, after the occupation took part, the Korean people started armed struggle against the Japanese imperialists and thus achieved the liberation of their country. This could only happen, because of the brilliant leadership of Comrade **Kim Il Sung**.

From his early childhood on, he devoted his whole life for the sovereignty of the country and the happiness of the Korean people.

The USA denied the wish of the Korean people to live sovereign life. They occupied the south of the Korean peninsula and established there a puppet regime. In the year 1950 the USA, together with the south Korean puppet regime, started the war against the DPRK. In a three-year long war, the DPRK people under the leadership of Comrade **Kim Il Sung**, defeated the US imperialists and their allies. The USA never accepted their defeat. The US administration tried every opportunity to destroy and sovereignty of the DPRK. The Juche idea created by the great Leader Comrade **Kim Il Sung** is the guiding line for the DPRK people in their struggle for sovereignty. Even in the hardest times during the Arduous March the DPRK people under the

wise leadership of Comrade **Kim Jong Il** took all measures for the independence of the country.

For this reason, Comrade **Kim Jong Il** developed the Songun politics.

Leader **Kim Jong Un** systematised the ideas of his predecessors to the theory of **Kimilsungism-Kimjongilism**.

### **DPRK: A Role Model for Neutral Austria**

After the WWII Austria was occupied by the four allied countries--the former Soviet Union, USA, France, and Great Britain. Like Germany, Austria was also divided into four parts. In 1955, after a treaty between Austria and the allied countries was signed, the foreign forces left the country and we got our sovereignty back.

In the treaty it was written that Austria must be “Eternal Neutral”. That means it is for Austria forbidden to join a military block. During the “Cold War” Austria was surrounded by NATO and Warsaw-Treaty States.

At that time Austria was a very small country surrounded by the allies of both super-powers. Austria always had a capitalist system but according to our “Eternal Neutrality”, we had good bilateral contacts with all countries in the world. For this reason, Vienna became one of the UN-Headquarters, and all of negotiations between the Soviet Union and the USA took place in Vienna. In the economic field Austria had excellent ties with the so-called eastern and western Blocks.

After the collapse of the socialist countries in the eastern Europe, the Austrian government decided that our state should join the European

Union. They argued that Austria is too small to stay independent. So, the political situation in Austria changed dramatically. We lost our sovereignty almost completely. F. e. our national law is ranked under the EU-Law. We have not our own currency anymore. In fact, inside the EU we are under the domination from bigger countries, especially Germany. Austrian soldiers exercise with foreign troops together. Austria joins the partnership of peace program from NATO. In fact, we lost our neutrality.

A lot of people in Austria are not satisfied with the current situation. Most of the Austrian population are now against the EU and look for a way to get out. The Austrian politicians tell the people that it is for Austria impossible to live out of the EU because Austria is too small to stay independent and sovereign.

For this reason we have to show the Austrian people the reality of the DPRK, It shows, that even in a small country, the people can lead a happy life, in sovereign country if they have the correct political theory and good leaders.

We as Juche-followers must teach the people in Austria the theory of **Kimilsungism-Kimjongilism** and about the activities and achievements of Leader **Kim Jong Un**.
