The great leader Comrade Kim Il Sung is the sun of the 20th century.

Achievements and exploits performed by him are innumerable.

The great leader Comrade Kim Il Sung was born into a poor revolutionary family on April 15, 1912. He followed his father's advice that one must have a good knowledge of his country in order to make revolution. He made the 1 000-*ri* journey for learning early in 1923.

He formed the "Down-with-Imperialism Union" in 1926. He founded the Korean Revolutionary Army in 1930, the Anti-Japanese People's Guerrilla Army in 1932, the Workers' Party of Korea in 1945 and the Korean People's Army in 1948.

Under the leadership of Comrade Kim Il Sung, the Korean people waged the anti-Japanese armed struggle for 20 years and thus liberated the country from the Japanese imperialism on August 15, 1945.

Comrade Kim Il Sung founded the DPRK in reflection of unanimous will of the Korean people. In this period he was always with Kim Jong Suk, the anti-Japanese war heroine.

Sometime later the DPRK defeated the US imperialists in the Fatherland Liberation War and completed rehabilitation with success under his leadership.

Comrade Kim Il Sung was elected the General Secretary of the WPK in October 1966 and the DPRK President in 1972 according to the DPRK Socialist Constitution which was newly adopted.

While conducting revolutionary activities, Comrade Kim Il Sung passed away unexpectedly at 2 at his office on July 8, 1994.

Comrade Kim Il Sung's immortal exploits were reliably inherited by the great leader Comrade Kim Jong Il, the eternal General Secretary of the WPK.

The respected Comrade Kim Jong Un is now thoroughly implementing behests of the peerlessly great persons.

At present, revolutionaries and progressive people all over the world keep image of Comrade Kim Il Sung with respect and admiration.

We should follow his sayings to build the most just world which opposes barbarity of capitalism and imperialism that constantly besieges and threatens us.

We regard the people's Korea as a powerful defence line of socialism.
