Korea was under the Japanese rule for 40 years owing to fabrication of the Ulsa 5-Point Treaty. The Korean people waged a number of such struggles against the Japanese imperialists as March First Popular Uprising and diverse activities of volunteers. However, founding the Korean People's Revolutionary Army in 1932 was of decisive significance in winning victory.

Since then, the KPRA had advanced vigorously till the overall territory of the Korean peninsula was liberated.

After liberation in 1945, the Korean people had to build new Korea. However, there appeared "control zone of responsibility" with the latitude 38 degrees North as a demarcation line between the Soviet Union and US. At that time, the US legalized its aggression against Korea.

Comrade Kim Il Sung opposed the US imperialists' invasion of Korea and the Korean people began to fight against the US since the US aggressive troops landed on the Korean peninsula. This was only the change of one aggressor into another. Yankees were more atrocious than Japs.

Traitor Syngman Rhee took power in 1948. Rhee followed the US as an animal does its master. The US made Rhee assume authority in the "Republic of Korea".

The anti-communist Syngman Rhee started practical military aggressive actions against the people's Korea. A war, which is called the Fatherland Liberation War in Korea and known as the Korean war in the West, broke out.

The DPRK people and the Korean People's Army achieved victory in the war under Comrade Kim Il Sung's leadership. After the war the DPRK people rehabilitated the whole country ruined by the savage US imperialists and carried out the three revolutions.

Through the cultural revolution, the DPRK removed the English and Japanese remnants left in the Korean language and abolished using Chinese characters, thus developing the native Korean language.

The DPRK liquidated illiteracy completely in a short span of time, thus finding no illiterate.

All of these are inconceivable apart from the wise leadership of Comrade Kim Il Sung.
