

# President Kim Il Sung--Paragon of Our life

Carlos Luna  
Member,  
Madrid Group for the Study of the Juche Idea, Spain

We keep an idea at the moment when we suffer from tremendous trials of the world. We always remember this idea and it enables us not to bend before the trials.

This idea has been firmly kept in our minds during the study of the eternal leader President Kim Il Sung's works. His works are run through with ideas of unyielding before the trials and defending his people with the principle of independence.

Whenever we are weakened and in fear, we should consider value of the idea.

The ideas developed by President Kim Il Sung in the revolution become a model for us now.

We should keep in our minds these ideas left by the eternal President Kim Il Sung.

The President's Juche idea should be disseminated in the world at this most difficult time of history.

We should keep his ideas in our memory forever, thus valuing them like our language and conveying them to all people as a treasure.

We will defend President Kim Il Sung's ideas through our activities for common interest.

Great idea can neither be destroyed nor removed. His ideas will never be perished as they are kept in minds of the progressive people.
