

Juche Idea—Great Idea of Independence

Dag Norum

Leader of the Oestfold District, CNP, Norway

The Juche idea created by President Kim Il Sung is recognized as the outstanding treasure in the history of human thoughts, and is becoming a banner of eternal victory leading the era of independence.

Numerous ideas and theories related to human destiny have been recorded in human history. However, none of these ideas and theories could fundamentally change the fate of the people around the world.

Only after accepting the Juche idea, the mankind did enter the path of independence carving out their destiny for the first time in history.

President Kim Il Sung pioneered the Juche ideology with deep insight into the demands of a new era of independence in which the masses appeared as masters of their own destiny, thus ushering in a new era in the development of human history, an era of independence.

With the founding of the Juche idea, the Korean revolution had steadily advanced along the road to independence with the Juche idea as its guideline, and a new era of independence was unfolded in which the masses of the people independently and creatively pioneered their own destiny. The Juche ideology was create

d in the arduous anti-Japanese revolutionary struggle against the Japanese imperialism, not at a comfortable and cozy room.

And it has become a great theoretical weapon which has been firmly verified in various stages of revolutionary practice.

The immortal Juche idea brightly illuminates the path not only for the Korean people, but also for the world's progressive people who seek independence.

The truly great President Kim Il Sung is the eternal sun of the world progressive mankind, who created the immortal Juche idea, illuminating the future of the progressive people in the world, and leading the cause of world independence to a brilliant victory.
