

Legacy of President Kim Il Sung Is Guarantee for Power and Prosperity of DPRK

A. Ch. Usupbaev,
Chairman,
Kyrgyzstan Group for the Study of the Juche Idea

2022 is a year of significance. The coming Day of the Sun is a significant holiday that marks the 110th birth anniversary of the great leader Comrade Kim Il Sung.

The Juche idea followers over the world and friends in the DPRK regard it necessary to emphasize outstanding exploits performed by the great leader in the Korean revolution and the cause of world socialism.

The great leader Comrade Kim Il Sung led revolutionary struggle of the Korean people in the historic period which was difficult for Korea. Wisely leading the Korean people, the great leader defeated the Japanese invaders and liberated Korea and founded the DPRK. The DPRK people won victory in the 1950-1953 Fatherland Liberation War under the leadership of the great leader Comrade Kim Il Sung, thus frustrating machinations of the US and its vassal countries to occupy the DPRK and subordinate its people.

Rehabilitation and reconstruction carried out in the postwar years on the basis of the independent principle proved that it was right to choose socialism. The DPRK's national economy was restored and industrial potentiality for its future development was provided by dint of self-reliance.

Under the leadership of the great leader Comrade Kim Il Sung, the DPRK maintained political and economic relations with the Soviet

Union and other socialist countries for decades and at the same time realized its economic self-sufficiency. In the period between the 1980s and the 1990s when the world socialist system went through crisis and collapsed, the DPRK thoroughly applied the principle of self-reliance, so that it could safeguard the socialist system.

The great leader Comrade Kim Il Sung performed great feats in the cause to safeguard socialism.

Comrade Kim Il Sung invariably led the DPRK even in the harsh period when the world socialist system broke down and its centre, the Soviet Union was eclipsed on the world political map, to safeguard the socialist foundations of the Republic and adhere to the fundamental principle of the state activities under the changed international situation.

The DPRK beat off in principle the US political and economic threats and defended independent character of its economy and lines of the state. In fact, the DPRK thoroughly safeguarded sovereignty in the period when globalization began. Globalization drove many countries of the world (including those which had belonged to the socialist camp in the past) into the US's political domain and subjected them to its politics of high-handedness.

The DPRK's economy was not involved in the so-called world economy that degraded many countries in Europe and Asia to a material market of the US and its "fellows".

The DPRK armed forces actively contributed to the defending of the socialist cause by demonstrating the will that it would safeguard the country and people from every foreign invasion.

The great leader Comrade Kim Il Sung passed away on July 8, 1994, but principles of Juche formulated by him have demonstrated validity for decades.

Invariably and primarily relying on its own strength, the DPRK removed aftereffects of the crisis caused by collapse of the world socialist system and consolidated the socialist planned economy and developed nuclear technology and nuclear weapons.

The DPRK whose guiding idea is the Juche idea joined the rank of world nuclear power. The most modern weapons defend the state system of the DPRK. The efficient planned economy is a reliable guarantee for development and prosperity of the country.

Political events happening in the present times prove the might of the Juche idea authored by the great leader Comrade Kim Il Sung. The DPRK's economy has enough potentialities to provide everything needed on its own. The latest-type missile systems equipped by the Korean People's Army enable it to reliably defend the country and people from any foreign threat in this unstable and disordered world.

The great Juche idea stood the test of times. Validity of the Juche idea was proved many times in different historic periods of the DPRK.

The Juche idea is a banner of self-sufficiency, might and prosperity of the DPRK. It was already foreseen by the great leader Comrade Kim Il Sung, the founder of the Juche idea.
