

President Kim Il Sung Who Shaped Powerful Driving Force of Revolution

Edmond Jouve
Director General,
European Regional Society for the Study of the Juche Idea

The Juche idea has demonstrated its validity and vitality more and more since the outbreak of world health crisis caused by COVID-19.

The Juche idea is an ideological and theoretical weapon that clarifies scientific ways for solving all problems arising in the building and activities of the Workers' Party of Korea and in the Party members.

In order to strengthen its ranks and push ahead with the revolution and construction with successes, a working-class party should place man at the center.

In order to hold the position of the driving force in the revolution, the masses of the people should be led by the party and the leader.

The leader is the top-intellect of the popular masses and the center of unity and cohesion.

The party is a political organization that realizes the leader's ideas and leadership.

Without the leader's ideas and leadership, the party is unable to lead revolution and construction to victory.

The leader, the party and the popular masses should form an integral whole. Only then, can they be the powerful driving force of the revolution.

The Eighth Congress of the Workers' Party of Korea (WPK) was held from January 5 to 12, 2021 under the guidance of Comrade Kim Jong Un, general secretary of the WPK, president of the State Affairs of the DPRK and supreme commander of the DPRK armed forces.

In his report on the work of the Central Committee of the WPK, General Secretary Kim Jong Un advanced a new fighting line and strategic and tactical policies to bring about an epoch-making advance in the socialist construction.

The report noted that serious mistakes that should be corrected necessarily were

revealed in several fields, especially in the field of the economy under difficult and complicated internal and external situations.

The WPK has relied consistently on the Juche idea and its ideal. That is why the WPK becomes the revolutionary party of a new type for the first time in the communist movement history.

According to General Secretary Kim Jong Un, this is the most brilliant exploit President Kim Il Sung achieved.

The WPK sees that a modern general hospital is built and enforces very positive policies so that the state can take care of the aged people.

At the 6th National Meeting of War Veterans held on July 27, 2020, General Secretary Kim Jong Un said that the WPK was proud of the wartime generation with dignity.

According to General Secretary Kim Jong Un, the WPK waged merciless struggle to resolutely do away with bureaucratism, illegality and corruption in order to defend the people's interests.

The WPK did not remain an onlooker to the problems caused by COVID-19 but took important measures.

The Juche idea is a guideline for global independence and peace.

Today, the Juche idea is further developed and enriched and shines invariably as the guiding ideology of the Korean revolution and the era of independence, thanks to General Secretary Kim Jong Un.

The Juche idea is now arousing support and response among all people as the great ideology that illuminates the fundamental way of carving out the popular masses' destiny, the road of independent development and prosperity for countries and nations and the way of realizing global independence.

Therefore, the study and dissemination of Kimilsungism-Kimjongilism presents itself as the most important task for the Juche idea researchers.

Long live the Juche idea!
