President Kim Il Sung and Chairman Kim Jong Il are the most prestigious veterans of independent politics, who led the people's cause of independence, the cause of socialism along the road of victory holding aloft the banner of independence.

In the 20th century the unprecedented revolutionary changes were brought about in the popular masses' struggle for independence and the struggle was carried out fiercely between progressive forces and reactionary ones, socialism and imperialism.

Embarking on the road of revolutionary struggle in such moving period, the President clarified the truth of revolution that independence is life and soul of the country and nation and that if independence is to be realized, it is necessary to reject flunkeyism and dogmatism and make the revolution independently and creatively, and kept adhering to the principle of independence in building socialism.

The most serious obstacle for mankind aspiring after peace and stability is the imperialist aggression and war that threaten the existence of countries and nations. The imperialist aggressive war openly disregarded basic principles of the world-approved international relations and gave big sufferings and pains to mankind.

Cherishing resolute stand of independence and anti-imperialism, the President and the Chairman conducted positive activities to frustrate machinations of the imperialists, the root cause of war and a peace breaker and disturber and achieve the world peace and stability.

The President and the Chairman advanced the idea on rallying all the people who aspire after peace and progress, around the common front, the idea that peace should not be begged for but won through the struggle and the idea that one should

not submit to or beg before the imperialist arrogant aggressive moves but fight against them with arms, and wisely led the struggle to cement unity of the world independent and anti-imperialist forces. Thanks to their remarkable leadership, a turn was brought about in the building of a new peaceful society and carrying out the popular masses' cause of independence.

President Kim Il Sung and Chairman Kim Jong Il are the incarnations of internationalist obligation who extended active support to the people in the countries struggling for independence so as to make big contributions to the victorious advance of the human cause of independence.

The President and the Chairman also saw that positive support and assistance were given to the developing countries including those in Africa when they were waging arduous national liberation struggle and when they started the building a new society. They also created international environment favorable for people's struggle to realize independence.

As a matter of fact, the DPRK had lots of things insufficient as it was building socialism in direct confrontation with the imperialists. Nevertheless, the President and the Chairman regarded it as the duty of genuine internationalist to help the countries who were advancing along the road of independence and anti-imperialism, the road of socialism and saw that every possible aid was given to them. Indeed, the President and the Chairman kept obligation of genuine revolutionary and sense of internationalist duty on the highest level.
