

# Might of Democratic People's Republic of Korea

Dr. Samir Diyab  
Chairman,  
Lebanon Group for the Study of the Juche Idea

The Democratic People's Republic of Korea was founded on September 9, 1948 and as a result, a genuine people's state was born for the first time in the country with a long history.

The founding of the Republic was a turning point of weighty significance in the Korean people's life. It was because that this country that had suffered from absence of rights and pains was turned into an independent and sovereign state. The DPRK was turned into an independent socialist state reflecting the popular masses' will. This served as an inspiring influence, a driving force of building a powerful country which plays an important role on the worldwide scale.

The DPRK was founded in the important historic period. It was not easy to found the Republic in that period. It was because that, at that time, the WWII ended on the worldwide scale and the US intended to bring its ambition of dominating Korea into reality.

History tells that this great country was founded by the outstanding leader President Kim Il Sung who had foresightedness and wise ideas. The President's ideas and great exploits served as a foundation in founding the Republic, building a modern and progressive socialist country and safeguarding its dignity and independence.

Since his early years, the President had regarded it as the most important duty to defend destiny of his people. He provided the Korean

people with ideological and mental pabulum and faith that enabled the Korean people not to yield before trials and authored the Juche idea, the correct guiding ideology that enabled them to challenge the US, the most atrocious force. Since the founding of the DPRK, the US has made every desperate effort to check its development and hurt its people's strong will. Meanwhile, the whole world knows well that the DPRK had challenged the imperialist forces' reckless moves and acts under the great leadership of President Kim Il Sung and Chairman Kim Jong Il, and is challenging them still now under the leadership of the respected Comrade Kim Jong Un. The imperialist forces failed to harm the strong will of the DPRK and its people and cannot do it in the future, too.

The DPRK was successful in the building of a powerful socialist country. Without doubt, this proves validity of the socialist line.

Thanks to the founding of the DPRK, the Korean people began to advance with confidence along the road of building socialism. In fact, the DPRK has been turned into an authorized state with self-defense capabilities on the worldwide scale and developed into a powerful country capable of destroying and checking every attempt of aggression by greedy fellows and aggressors. The Korean People's Army could perform its important and fundamental role as the main force in building a prosperous and powerful country thanks to Songun. The army even renders services to the completion of more important projects in the economic construction.

The DPRK has changed all fields including the economy, society and politics evidently and surprisingly. Attaching utmost importance to science and technology, the DPRK registered great successes in developing science. Though it suffered from difficulties caused by

destructive natural disasters and the hostile forces' isolation and stifling, the DPRK succeeded in launching the artificial satellites of different uses by its own efforts. Beyond all doubt, this proves that the DPRK is a country that leads the scientific and technical progress and a country that astonishes the world and enjoys admiration of the world.

At present, the DPRK makes continuous efforts to improve the people's livelihood in all fields. The state provides everything necessary for the people. Here, I would like to mention about an important issue as an answer to the unjust and hostile falsehood spreading about freedom in the DPRK.

All members of the society in this country are leading political freedom and exercising their rights to their hearts' contents. A man who witnesses the DPRK's reality comes to find that the DPRK people are leading dignified life which the people in most countries of the world dream of. What I can affirm fairly through the several visits to the DPRK and the repeated contacts with the people of all walks of life is that everything I wrote are based on those I personally witnessed in reality. As a matter of fact, I did not write all that I witnessed and felt. It is because that it needs so many pages and the achieved successes are much bigger than those I had witnessed. This is not so astonishing one in this country which was built on the basis of the Juche idea that sanctifies human and gives top priority to the masses of the people. The DPRK is a genuine people's country that fully guarantees the people's rights and dignity.

Today, all people in the DPRK are firmly united around the Party and the leader.

The world urgently demands the leaders who lead their people along the road of freedom and dignity and can say "no" to the US

reckless and selfish attempts to divide and dominate the world in order to seize the world wealth and properties and enslave the people. The world needs such genuine leaders as the great Comrade Kim Jong Un and the wise leader president Bashar Al-Assad. The world also demands these great leaders to be shoulder to shoulder to frustrate the US schemes, win victory and regain dignity and freedom of the people.

The great DPRK people, you will always be at the apex of victory and prosperity as you are led by the distinguished leader Comrade Kim Jong Un.

The victory, begun with the liberation from colonialism on August 15, 1945, will be ended with realization of the great DPRK people's hope to liberate completely the Korean peninsula and achieve the national reunification.

In conclusion, we affirm with all fighters of freedom over the world. The nation that has such leader as Comrade Kim Jong Un will always achieve victory, prosperity and progress.

We, the Lebanon people, suffer from pains owing to terrorism by the US and persecution by the Arab reactionaries. But we are supported by all progressive forces of the world who love justice and peace and aspire after independence. We extend congratulations and blessings to you, the great DPRK people.

We offer our congratulations to you who have Comrade Kim Jong Un who is loyal to the creative ideology and time-honored revolutionary heritage. We also congratulate the entire Korean people and the Workers' Party of Korea who are following him.

We congratulate you who have the seasoned fighter with strong will, the wise leader who leads his country to victory in spite of trials, difficulties and sanctions by holding fast to the principle established by

President Kim Il Sung and maintained by Chairman Kim Jong Il.

The great people, let's advance forward winning victory after victory. The DPRK will remain as a country capable of achieving amazing creation and development and realizing reunification of the Korean nation against all the greedy enemy on the Korean peninsula.
