Donostia/San Sebastian, Spain,

In this significant year, Juche 111 (2022), we celebrate the 110th anniversary of the birth of our Great Leader Comrade Kim Il Sung, the eternal President of the Democratic People's Republic of Korea.

From the very early years of his life, Comrade Kim Il Sung, who grew up under the revolutionary influence of his parents, devoted his life to the cause of independence.

At the beginning of his revolutionary activities, he was forced to confront with the old generations of factionalists and followers of the big powers.

He organized independent revolutionary organizations with the goal of national and class liberation of the Korean people first, and the entire people of the world afterwards, as their final goal.

After uniting together broad masses, Comrade Kim Il Sung achieved the great cause of the restoration of the fatherland. Right after the independence from the Japanese rule, when the Korean people were carrying out the construction of new Korea of the people, the imperialist forces commanded by the US imperialists, provoked a war of aggression to completely occupy Korea. Once again, under the great

leadership of General Kim Il Sung, the Korean people won the Fatherland Liberation War, entering in history as the first people to win a war against the USA.

During the reconstruction of the devastated country from the imperialist war, the Korean working people laid a solid foundation for their independent national economy, and established the socialist system, the true guaranty of independence.

At the time of sudden changes in the International Communist Movement, the Workers' Party of Korea, led by Comrade Kim Il Sung, wisely decided to uphold its independence and maintain the traditional friendly and comradely relations with other socialist countries.

In the meantime, Comrade Kim Il Sung aided many peoples and countries on their struggle for national independence and socialist revolution, sending all sorts of equipment, technical and scientific personnel, weapons and even soldiers. Many countries achieved national independence and turned out to build a new society thanks to the DPRK's internationalist assistance.

In the late 1980s and the early 1990s, the collapse of almost all socialist countries, one after another following each other, proved the imperative need of independence to carry out the emancipation of humanity.

The DPRK passed successfully this harsh task of history, and builds an independent and great socialist powerful country in all fields of politics, the economy and military affairs.

Today, the DPRK people and the progressive peoples of the world are thankful to Comrade Kim Il Sung who illuminated the road ahead of mankind and rendered great services to the cause of human independence.
