

On the Occasion of 110th Birth Anniversary of Comrade Kim Il Sung

Juan Jose Leon Vega,
First Vice-chairman,
Committee for Supporting Korea's reunification, Cuba

April 15, 2022 is the day which marks the 110th birth anniversary of the great leader Comrade Kim Il Sung.

World progressives and, in particular, the DPRK people celebrate this day with significance.

The great leader Comrade Kim Il Sung was born at a straw-thatched house in Mangyongdae on April 15, 1912.

He witnessed miserable life of the people groaning under the Japanese imperialist colonial rule while growing up.

As he grew up under revolutionary influence of his parents, he led the anti-Japanese armed struggle to victory and thus liberated the country.

After liberation the DPRK people led happy life under the care of the great leader. However, they had to suffer from trials due to the Korean war ignited by US imperialists.

The DPRK people fought bravely under his leadership, and in the end won victory in the war on July 27, 1953.

After the war they made efforts to rehabilitate the country and reconstructed schools, buildings and co-operative farms.

The great leader visited every part of the country with devotion and gave teachings on the spot. As a result, the DPRK has been turned into a place for the people's happiness, a powerful country.

The great leader put forward wise lines for independent and

peaceful reunification of the country and devoted his all to the national reunification.

I was privileged to make personal acquaintance with Comrade Kim Il Sung. Perhaps there will be no foreigner but me who was received by him many times. Sometimes individually and sometimes as a member of the Cuban delegations, I was received by him. Our Cuban leaders and people keep respect for him.

I was told a lot by the great leader about many issues of the DPRK and the world, and his sayings were sagacious.

The period, when we celebrate this April which marks the 110th birth anniversary of the great leader, can be said to be a short one in the human history. However, all Korean people and world progressives will remember forever Comrade Kim Il Sung who performed immortal feats for his people and all progressives of the world.
